CCDA Updates

- CCDAs have been updated to the new 2.1 format.
- Updated Ambulatory and Clinical Visit Summary.
- New CCDA Sections, including:
 - Medical Equipment
 - Care Plan Sections
 - Health Concerns
 - Goals
 - Interventions
 - Evaluations and Outcomes

Care Plan sections

- New Facesheet widget.
- Quickly view a patient's active goals.
- Hover over a goal to see the Due Date and Status.

The screenshot displays a mobile application interface for a patient's care plan. At the top, there is a header with a person icon and the text "Care Plan". Below this is a section titled "ACTIVE GOALS" with a light blue background. This section contains a list of four goals, each with a person icon, a description, a due date, and a status:

- Get rid of intermittent fever that is occurring every few weeks (DUE 07/31/2017 In Progress)
- Keep weight under 100kg. (DUE 08/19/2017 In Progress)
- Need to gain more energy to do regular activities. (DUE 08/20/2017 In Progress)
- Negotiated Goal for Body Temperature Goal for Temperature: 98-99 (DUE 08/20/2017 In Progress)

Below the active goals is a section for "HEALTH CONCERNS" with a list of items: Fever, Hypertension Problem Concern, Overweight, and Severe hypothyroidism. Further down, there are sections for "INTERVENTIONS" and "EVALUATIONS AND OUTCOMES", both of which currently show "None". The interface uses a dark theme with blue and green accents.

Care Plan sections

Demographics and Patient Information

- New Sexual Orientation and Gender Identity
- Multiple Races and Ethnicities

The screenshot shows a patient information form with the following fields and values:

- Race:** A multi-select dropdown menu with three items: "Caucasian/White ✕", "African American/Black ✕", and "American Indian/Alaskan Native ✕".
- Ethnicity:** A dropdown menu with "Not Hispanic or Latino ✕" selected. A list of other options is visible: "Chilean", "Colombian", "Costa Rican", "Criollo", "Cuban", and "Dominican".
- Marital Status:** A dropdown menu with "Unknown" selected.
- Drivers License:** An empty text input field.
- Address:** "Line 1: 879 Null Lane".
- Zip:** "35215".
- City:** "Birmingham".
- State:** "Ala".

Allergic Reactions and Severity

- New Severity Dropdown
- New Coded list of Allergic Reactions to select from

The screenshot shows a software window titled "Allergy Details - Advil(details)". At the top, there is a "Reaction Date" field with a calendar icon, a "Severity" dropdown menu currently set to "Moderate" (highlighted with a red box), and a "Recorded" date of "08/31/2017". Below this is a section titled "REACTIONS" containing a grid of checkboxes for various symptoms: Rash, Sneezing, Abdominal pain, Difficulty swallowing, Hives (checked), Nasal congestion, Nausea, Chest pain, Itching, Coughing, Vomiting, Dizziness or lightheadedness, Swelling, Headaches, Diarrhea, Loss of consciousness, Watery eyes, Shortness of breath, Bloating, and Anaphylaxis (highlighted in red). An "Other" text input field is located below the grid. At the bottom is a "NOTES" section with a large text area and a calendar icon. "OK" and "Cancel" buttons are at the bottom right.

Implantable Devices

- View and access active devices from Facesheet
- Add devices manually or by Unique Device Identifier

The screenshot displays a user interface for managing implanted devices. At the top, a green header bar contains a lightning bolt icon and the text "Implanted Devices". Below this, a card shows the device name "Cardiac resynchronization therapy implantable defibrillator" with the status "(Implanted: NA)".

The main interface is split into two panels. The left panel, titled "Implanted Devices" with a plus sign and "1 Item(s)", lists the device name and status. The right panel provides a detailed view of the selected device, including:

- UNIQUE DEVICE IDENTIFIER:** (01)00643169007222(17)160128(21)BLC200461H, with an "Edit Device Details" link.
- DEVICE NAME:** Cardiac resynchronization therapy implantable defibrillator
- COMPANY NAME:** MEDTRONIC, INC.
- VERSION/MODEL#:** DTBA1QQ
- PRIMARY DEVICE ID:** 00643169007222
- SAFETY INFO:** Labeling does not contain MRI Safety Information
- CONTAINS RUBBER?:** No
- MADE FROM HUMAN CELL TISSUE?:** No
- EXPIRES:** 01/26/2016
- Comments:** No comments

Implantable Devices

- View and access active devices from Facesheet
- Add devices manually or by Unique Device Identifier

The screenshot shows the 'Add - Implanted Device' window. At the top, there is a search bar with the text 'Enter or scan unique device identifier(UDI)' and a 'Find' button. Below this, the 'Manually Enter Details' radio button is unselected. The main form area contains several fields, all of which are currently empty and marked with '--'. These fields include: DEVICE NAME, BRAND NAME, DESCRIPTION, COMPANY NAME, a two-column section for VERSION / MODEL and PRIMARY DEVICE ID, another two-column section for SERIAL NUMBER and LOT NUMBER, SAFETY INFO, a two-column section for CONTAINS RUBBER and MADE FROM HUMAN TISSUE, a two-column section for MANUFACTURED and EXPIRES, and a DEVICE NOTES section at the bottom. At the bottom right of the window are 'Next >' and 'Cancel' buttons.

The screenshot shows the 'Add - Implanted Device' window. At the top, there is a search bar with the text 'Enter or scan unique device identifier(UDI)' and a 'Find' button. Below this, the 'Manually Enter Details' radio button is selected. The main form area contains several input fields, all of which are currently empty. These fields include: DEVICE NAME, BRAND NAME, DESCRIPTION, a larger DEVICE NOTES text area with a scroll bar, an 'Additional Details' section header, and several two-column sections for: COMPANY NAME, VERSION / MODEL and PRIMARY DEVICE ID, SERIAL NUMBER and LOT NUMBER, and SAFETY INFO. At the bottom right of the window are 'Next >' and 'Cancel' buttons.

GREENWAY ANALYTICS

Greenway Analytics – Program Performance Dashboard

- Goal
 - Address top pain points with existing dashboard
 - ONC 2015 Edition Certification Requirements
 - Provide support for MIPS
 - Create foundation for more robust analytics for Prime Suite.
- Availability
 - Accessible through Prime Suite via the Reporting Menu.
 - Available to all customers on v18.00 at no additional cost.

Program Performance Dashboard

- New program selection screen to assist in navigating program requirements.

Greenway Quality Portal | **DL Dawn Lane (dl)** | ONCCERT2 (350500) | Log off ?

Scorecard Summary | Measure Details | Compare Providers | Measure Analytics | **Program Selection** | Help

PROGRAM SELECTION

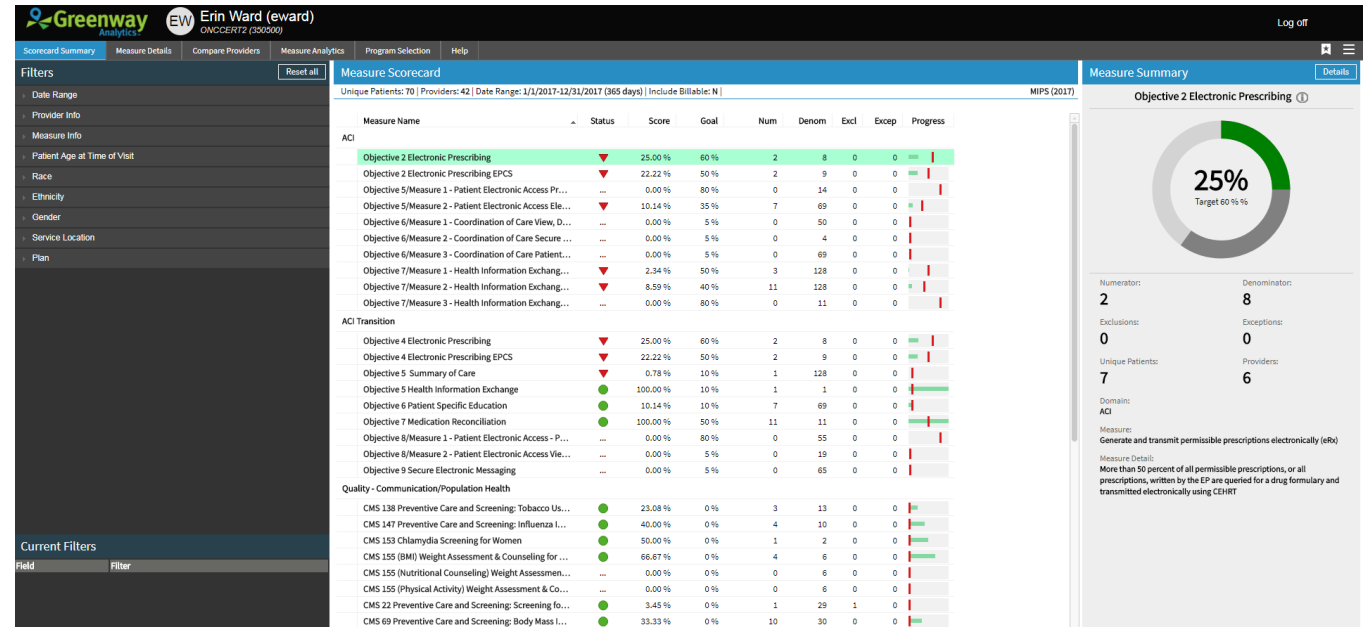

Step 1: Select Program

<input type="radio"/> Stage I 2013 or earlier	Stage 1 established a core and menu structure for Meaningful Use objectives, measures, and exclusions for eligible professionals to achieve in order to demonstrate meaningful use of their EHR. (2011, 2012 & 2013)
<input type="radio"/> Stage I 2014 or later	Changes to the original Stage 1 Meaningful Use objectives, measures and exclusions for eligible professionals. These changes took place October 1, 2012 and took effect in January 1, 2013 for eligible professionals. (2014, 2015 & 2016)
<input type="radio"/> Stage II	Technically, this is Modified Stage II and not the original Stage 2. Meaningful Use Stage 2 expanded upon the Stage 1 criteria with a focus on ensuring that the meaningful use of EHRs supported the aims and priorities of the National Quality Strategy. Stage 2 criteria encouraged the use of health IT for continuous quality improvement at the point of care and the exchange of information in the most structured format possible. The Centers for Medicare & Medicaid Services (CMS) and the Office of the National Coordinator for Health IT (ONC) published the final rule on meaningful use Stage 2 on September 4, 2012. (2015, 2016 & 2017)
<input type="radio"/> Stage III	Meaningful Use Stage 3 is the third phase of the meaningful use EHR incentive program. The Centers for Medicare & Medicaid Services (CMS) and the Office of the National Coordinator for Health IT (ONC) published the final rule on meaningful use Stage 3 on October 6, 2015. It only has Stage III measures. (2017 and 2018)
<input checked="" type="radio"/> MIPS	The Quality Payment Program combines the existing Medicare Meaningful Use (MU), Physician Quality Reporting System (PQRS) and Value-Based Modifier (VBM) programs into MIPS, starting CY2017 performance year. MIPS payment adjustments are applied to Medicare Part B payments two years after the performance year, with CY2019 being the adjustment year for the CY2017 performance year. (2017 includes ACI, ACI Transition & Quality; 2018 includes ACI and Quality)
<input type="radio"/> CPC+	CPC+ is a 4 year multi-payer initiative fostering collaboration between public and private health care payers to strengthen primary care.

PRIME MOBILE V4.25
FURTHER CUSTOMIZATION AND ADDED SUPPORT

Prime Mobile value

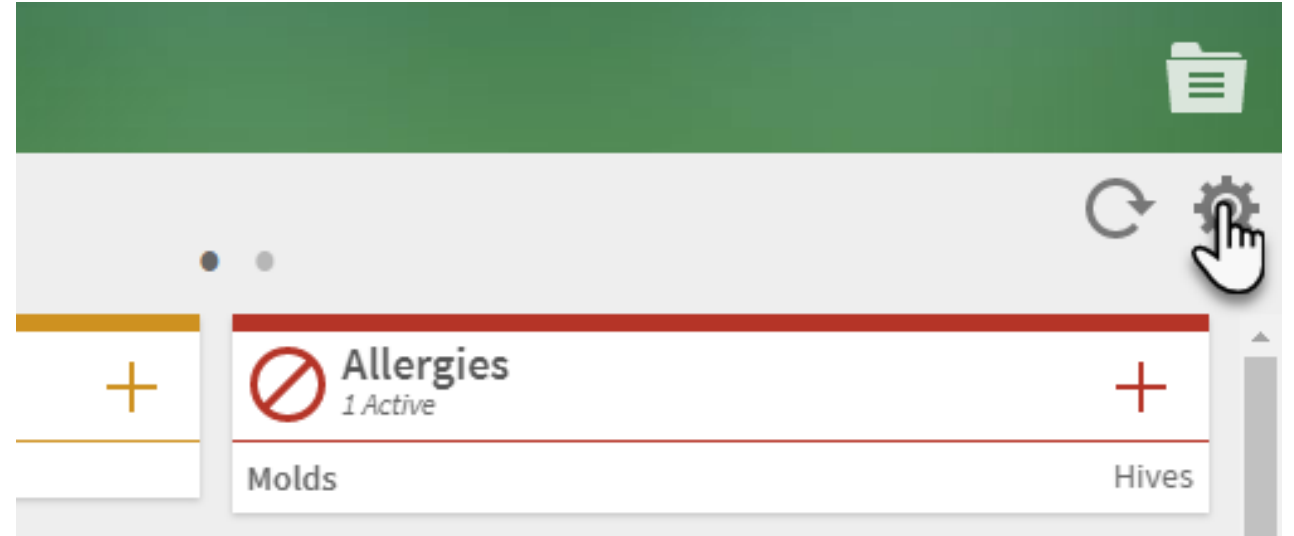

- Works seamlessly with Prime Suite.
- Access from your Apple, Android, and Windows mobile devices.
- Performs a variety of tasks.
- Care for patients from anywhere.

The screenshot displays the Prime Mobile interface for a patient named Helen L Ingram, 80-year-old female, born 07/18/1935. The interface is organized into several sections:

- Header:** Patient name and demographic information, along with navigation icons for Home, Messages, Patients, and Help.
- Alerts:** A red banner for "PATIENT ALERTS" containing: Medicare ABN signed, Pain Med Seeker, Allergic to Latex, and H/O smoking.
- Problems:** A yellow section with 2 active problems: Chronic Obstructive Pulmonary Disease (Medical) and Hypertension - mild and no meds taken for it (Medical).
- Medications:** A blue section with 3 active medications: Advair Diskus (Expired), Flexeril, and albuterol sulfate.
- Vitals:** A purple section showing vital signs for 08/14/12 5:05 pm: 120 HR, 110 RR, 17 RR, 98.5 °F TEMP, 80 WT, 153 lbs, HT 5' 7", O₂ -- %.
- Allergies:** A red section with 1 active allergy: PENICILLINS (rash).
- Documents:** An orange section with 5 documents, including Lumbar region disc disorder (08/14/12), General medical examination; routine general medical examination at a health care facility, Essential Hypertension, Angina Pectoris (07/23/12), Anxiety Disorder (07/11/12), Work in appointment (07/13/11), and Moderate Chronic Obstructive Pulmonary Disease (07/06/11).

Facesheet updates

- Further customization.
- Multiple tabs can be created.
- Control which widgets appear on each tab.

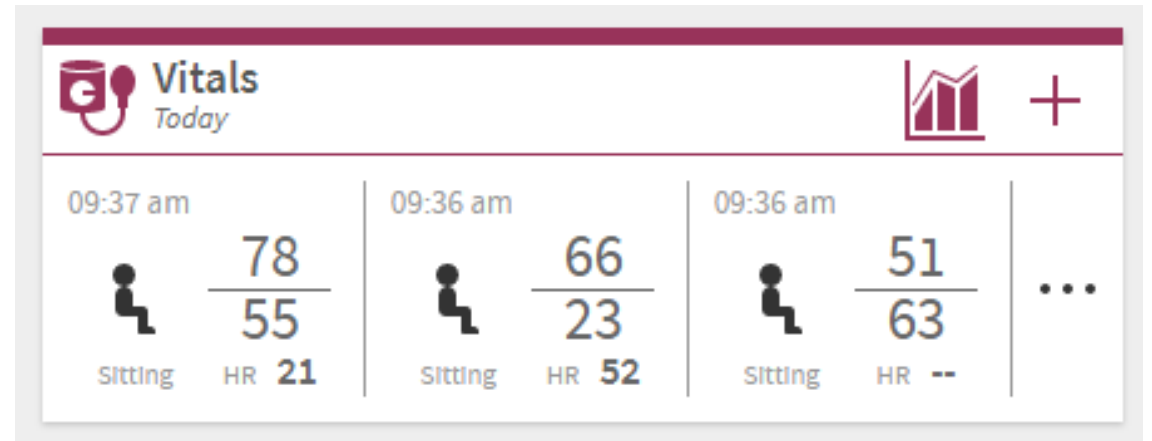

General enhancements

- Larger screens now support more widget columns on your screen at the same time, maximizing available screen space.
- Added support for multiple races.
- Added support for multiple ethnicities.
- Ability to add severity and select reactions to Allergies.
- Charges — Add Modifiers to Procedures.
- Charges — Add additional Diagnoses per procedure.
- Charges — Updated search to include ICD-10.

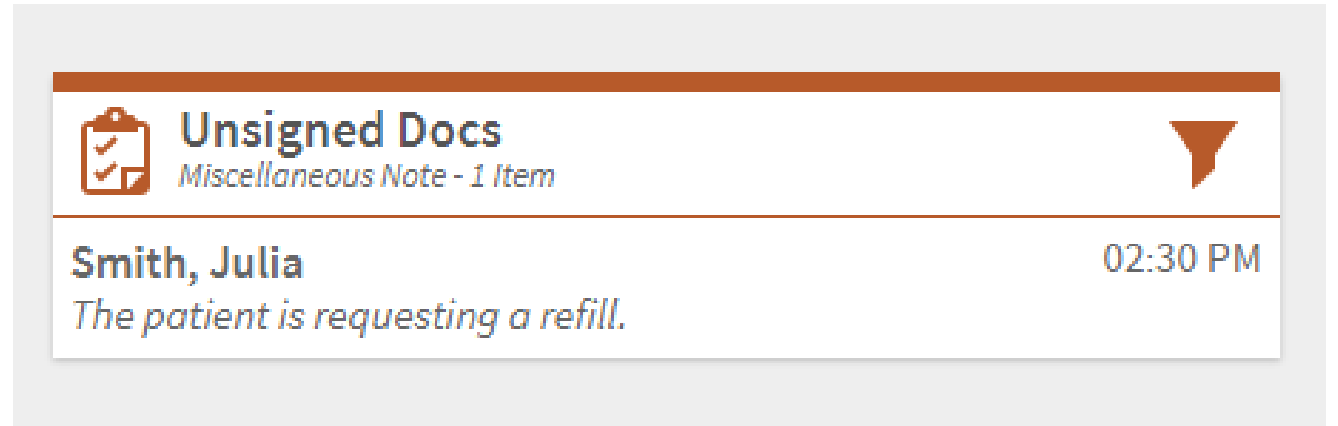

Vitals Widget improvements

- Record a set of vitals as Orthostatic Vitals.
- Data entry fields added to account for Flow Rate and FiO2 stats.
- Track patient FiO2 stats via charts.

Unsigned Documents

- Added an Unsigned Documents widget to the Homepage.
- Shows all unsigned documents by default.
 - Allows you to filter by type of document for a more specific view.

The screenshot displays a widget titled "Unsigned Docs" with a clipboard icon and a dropdown arrow. Below the title, it indicates "Miscellaneous Note - 1 Item". A single document entry is shown for "Smith, Julia" with a timestamp of "02:30 PM" and the text "The patient is requesting a refill."

Unsigned Docs	
Miscellaneous Note - 1 Item	
Smith, Julia	02:30 PM
The patient is requesting a refill.	

A decorative graphic featuring a horizontal blue bar across the middle of the slide. On the left side, there are several overlapping purple circles of various sizes. Some circles are connected by thin lines, and one circle is partially overlaid by a semi-circular pattern of small squares. The background is white.
