Ryan Akin, Product Management

Dictate delight

- Why have you chosen to dictate?

A decorative graphic featuring a horizontal blue band across the middle of the page. On the left side, there are several purple circles of varying sizes, some connected by thin lines, and a faint circular pattern of small squares. The text 'OUR SOLUTION' is written in white, bold, uppercase letters on the right side of the blue band.

OUR SOLUTION

Greenway Speech

Powered by natural language understanding

Incorporated Fluency Direct technology for better speech recognition

User profile is available to the user across multiple devices and systems

Technology in place to quickly expand microphone support beyond wired mics

Fluency Direct “pill” offers a cleaner look and sits on top of Prime Suite for easy access

Save
\$9,000
annually

**Improved
speech
recognition**

30% reduction in
misrecognitions*

DICTATION NOTES VS. STANDARD NOTES

Prime Suite dictation strategies

Users have multiple workflow options and can choose between utilizing dictation note types or note types native to Prime Suite

Dictation note

- Users most suited for this approach
 - Use Prime Speech today and use the dictation note
 - Transitioning from traditional dictation/transcription
- Offers more hands-off dictation and navigation within the note
- Requires additional workflow for orders and E&M coding

Standard note

- Users most suited for this approach
 - Leverage templates and standard notes today
 - Transitioning from more narrative notes to templates
- Allows for use of templates
- Automated E&M coding
- Combines use of keyboard and dictation
