MediaDent seamlessly integrates with Intergy® EHR to enhance workflow efficiency and improve patient outcomes

With a strong focus on usability, security, and compliance, MediaDent enables dental practitioners to **prioritize what matters most—providing excellent patient care**. Its integration with Intergy EHR ensures a cohesive workflow, supporting everything from appointment scheduling and treatment planning to imaging and billing, promoting holistic patient care and reducing data silos.

KEY FEATURES:

- Seamless EHR Integration
- Enhanced Workflow Efficiency
- Comprehensive Patient Care
- Secure & Compliant
- Scalable for Growing Practices

*MediaDent's built-in digital imaging system **helps Federally Qualified Health Centers (FQHC) deliver more comprehensive and holistic dental care.***
