

Intergy® Hosted Bundle

DISCOVER THE VALUE AND SERVICE
WITH A HOLISTIC APPROACH

Greenway
Health™

Is your practice searching for an intuitive solution that offers best-in-class functionality and aligns with your long-term vision? At Greenway Health, **your success is our top priority**. We're excited to present our electronic health record (EHR) and practice management platform, along with the additional features detailed below, all available through the Intergy Hosted Bundle.

PARTNER WITH GREENWAY FOR INNOVATION

Intuitive navigation: Easily access urgent tasks, patient information, and other priority items with customizable, easy-to-navigate views, keeping your priorities aligned with your workflow.

Efficient interoperability: Benefit from an extensive network of clinical endpoints, lowering the cost and speeding up the implementation of laboratory and radiology orders and results.

Secure data: Our hosted solutions provide a secure environment without the maintenance challenges of on-premise hardware and software. Transitioning to hosted means we take over daily security and service responsibilities.

GREENWAY'S TOOLS AND RESOURCES

Get equipped with the knowledge to meet Quality Payment Program requirements, and position your practice to generate revenue through value-based programs.

- **Service and support** — Our experts will come on-site to get you up and running, and after go-live, you'll have direct access to top-rated support and training.
- **Value** — We provide you with the essentials for a successful practice: clinical and practice management, patient engagement, and powerful analytics.
- **Simple pricing** — No tricks, no hidden fees. You pay a flat rate, per provider per month, for this subscription Bundle.

“Intergy has been great. I’ve worked with the same people since the very beginning 20 years ago. I have seen them at reENGAGE and it’s nice to have that kind of personal touch when getting to connect in person. It really started from the very beginning, starting a practice, just starting using the software, and not knowing really anything. Having these people that were always very responsive to help was very reassuring.”

– Dr. Michael Jordan, MD
