

Benefit Overview

Greenway Health PATIENT PORTAL

-  **21st Century Cures Act compliance –**
Simplify MIPS reporting reimbursements and enhance health information transparency for patients.
-  **Simple access –**
Connect patients quickly to the portal with a simple and easy invitation and registration system.
-  **Flexible convenience –**
Accessible 24/7 on any device, complying with Web Content Accessibility Guidelines (WCAG).
-  **Patient satisfaction & outcomes –**
Enhanced patient satisfaction and outcomes – Tailored functionalities catering to patients' needs and preferences, empowering them on their teams.
-  **Increased practice profitability –**
Save time and reduce phone/email interactions by eliminating manual processes.

Transform Your Patient Experience and Streamline Your Practice

Unlock the power of patient convenience, connection, and empowerment beyond the office with the Greenway Patient Portal – **your all-inclusive tool for patient engagement, improved clinical outcomes, and streamlined practice efficiency**, available to Intergy and Prime Suite clients.

CAPABILITIES:

- Display all Vitals, Lab Results, Medications, Immunizations, and more.
- Streamlined and self-service appointment scheduling with customizable options for patients.
- Secure and timely communication through portal Messaging with abilities to request health records or prescription refills.
- Payment collections through Greenway Health Pay powered by InstaMed® with a built-in Digital Wallet.
- SMART-on-FHIR capabilities through the embedded Greenway SmartHub enable patient-driven scalability of needs.
- Client and Greenway supplied electronic Documents & Forms for simpler and self-paced intake and sharing of information.
- Patients can easily update their personal and demographic information, which is then automatically sent back to the practice.
