

Integrated EHR – Simplified

Improving Patient Health Outcomes

It requires more than just an EHR – it takes a suite of integrated solutions that drives your mission to practice medicine. Greenway Health’s cloud-based platform, Intergy, is a clinically driven Practice Management and Electronic Healthcare Record (EHR) platform for ambulatory healthcare practices. **Intergy Suite supports improved clinician experience and patient care** by providing customizable workflows, clinical documentation templates, problem-oriented flowsheets, immunization management, and point-of-care clinical decision support. Our end-to-end solution supports the many functions of your practice, **enabling financial success and restoring the focus on patient care.**

INTERGY EHR

A guiding principle in selecting the right Electronic Health Record (EHR) for your practice is that your clinicians can quickly learn and use the technology to enhance their clinical workflow. Intergy EHR is a physician-focused, patient-centric solution that allows you to access clinical information easily, is customizable based on your specialty, and adapts to existing workflows rather than forcing you to change how you work. Intergy EHR complements your clinical approach by providing streamlined interactions that facilitate your current practice workflow and includes numerous robust features.

“Greenway has given us the flexibility to expand our patient care and gives us a picture into the whole patient. Everyone from Podiatry, to Medical-Legal Partnerships, are able to document in the EHR and share data across the entire care team.”

– Beth Wrobel, CEO, HealthLinc

KEY BENEFITS:

- **Specialty-specific EHR** – Whether you practice Primary Care, Pediatrics, OB-GYN, or another specialty; Intergy EHR has features tailored to your practice’s unique needs
- **Simplified Workflows** – Improve efficiency with easy-to-navigate documentation that does not slow you down and provides customized views for optimized provider workflows
- **Revenue Optimization** – Enhance coding accuracy within Intergy EHR & realize billing efficiencies with our integrated Practice Management solution, Intergy PM

INTERGY PM

Greenway Health's Intergy Practice Management (PM) provides the tools to improve operational efficiency and drive financial performance. Intergy PM automates insurance eligibility checking, delivers advanced rules-based scheduling and patient flow tracking, and supports claim control – optimizing your practice resources while improving your financial performance.

KEY BENEFITS:

- **Multi-practice capabilities** – Centralize your financial operations for multiple practices with Intergy PM, allowing simplified patient queries and payment posting capabilities
- **Advanced rules-based scheduling** – Maximize productivity by setting scheduling rules based on appointment types or insurance plans as examples – customizable to fit your specific practice needs
- **Claim Control** – Proactive at-risk claim dashboard allows your practice to track, correct, and edit claims enabling you to get paid faster and more accurately

CHALLENGES WE ADDRESS

- ✓ **Cumbersome workflows** – With an integrated EHR and Practice Management solution, you will benefit from streamlined and customizable workflows, resulting in increased productivity across your practice
- ✓ **Complex Insurance & billing rules** – Intergy Practice Management offers robust eligibility verification through our integrated Greenway Clearinghouse Services, providing you access to support to help monitor connectivity, reduce rejections, and better manage the claim cycle
- ✓ **Lack of Insight on Operational Performance** – Our team of experts provides consultation and advice based on critical metrics and delivers comprehensive reporting and key performance indicators through Intergy's reporting capabilities

RESULTS YOU CAN EXPECT

- **Fully integrated Greenway ecosystem** that will meet the needs of ambulatory clinics
- **Reduced clinician burnout & cognitive load** through streamlined workflows that align with your practice
- **Positive financial outcomes** with robust billing and collection software technology
